

SARATH S

OBJECTIVE

I am a Dentist by profession who was always fascinated by technology and always wanted to learn tech-based skills. This took me into web development and currently I am looking forwards for avenues where I can showcase my skill, capabilities and knowledge in web development, in an organization which recognizes the value of hard work and trusts me with responsibilities and challenges.

EXPERIENCE

YouTube Clone

What I learned:
Using Html, Css, React to recreate UI similar to YouTube.
Managing API calls to YouTube Data API and handling the data to add functionality to apps.

<https://yt-clone-delta.vercel.app/>

Mindfulness App

What I learned:
Integration of web development skills such as CSS animations, Web Audio API, and basic CRUD operations to create a simple application.

<https://phoenix-dare.github.io/Mindfulness/>

Drum Machine

What I learned:
Used HTML, CSS, React js to build a functional Drum Machine. Learned usage of React Hooks to manage states.
